

CORPORATE PROFILE

About MGL SP

MGL Sehoole Projects CC (MGL SP) was founded in 2006 and has since forged its way into a multi-skilled organization in the architecture, and civil fields. Our outlook as an organization is to delivery great work, better products, on time, and under-budget in a way that helps all our clients in varying, yet harmonious ways.

In 2015 we expanded into stationery supplies and cleaning services as part of our offerings, and we have since then made it a point to leave a great, diverse, and happy clientele. We are proud of our work, and the ways we have helped several communities around the country.
